

## **ASSISTED & ADVICE BASED PREVENTION FOR EFFECTIVE RISK MANAGEMENT**

We proactively call and reach-out.

We help prioritize, guide, follow-up and serve.

## **TECHNOLOGY WITH A HUMAN TOUCH**

Alarms alone cannot prevent fires; corrective actions do. As a **MONITORED SOLUTION**, we provide a team of experts who reach-out to assist and guide towards implementing corrective actions.

### **REAL-TIME 24/7 MONITORING**

Detects:

- Electrical problems such as faults and anomalies
- Overheating of electrical panels
- Potential machinery breakdowns

### **MONITORED & ASSISTED SERVICE & EXPERTISE**

PreVtech is the only electrical network monitoring solution that provides the proactive assistance of a team of experts, available to help client prioritize and diagnose cases.

### **QUICK, EASY & COMPLIANT INSTALLATION**

- The PreVtech provides a technical layout and work plan for every installation.
- We test and qualify every installation through a rigorous qualification commissioning and onboarding process

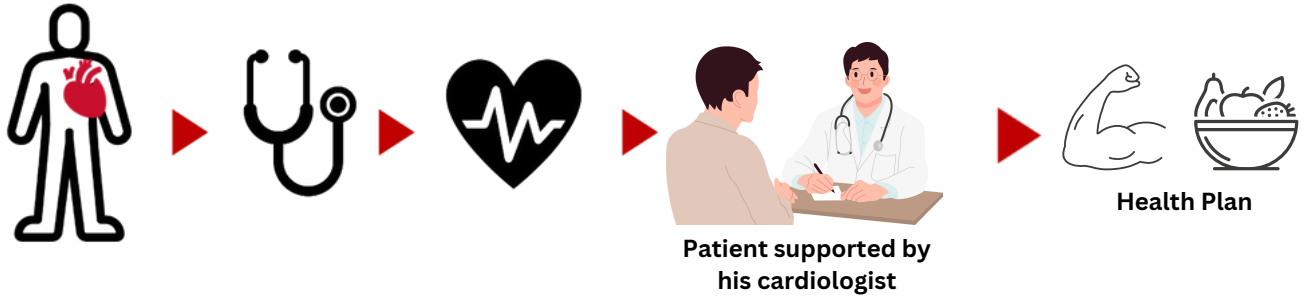

### **THE MOST RECOGNIZED BY BY INSURERS**

Recognized by insurers for risk management and preventive management benefits. We have performed over 2800+ successful installations to date. (Canada & USA)

# THE ELECTRICAL NETWORK: THE “HEART” OF ANY OPERATION. WOULD YOU TRUST ITS HEALTH TO A “GENERALIST”?

HEALTH SPECIALIST APPROACH

Patient supported by his cardiologist

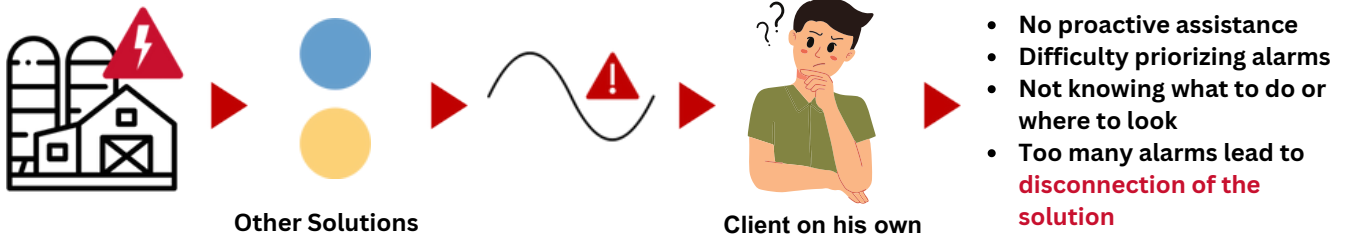

PREVENTION SPECIALIST APPROACH

PrevTech IoT Solution

Client supported by proactive, and dedicated domain experts

GENERALIST APPROACH

Other Solutions

Client on his own

- No proactive assistance
- Difficulty prioritizing alarms
- Not knowing what to do or where to look
- Too many alarms lead to **disconnection of the solution**

## SETTING THE STANDARD, THE ESSENCE OF LEADERSHIP

**PrevTech’s Sole Purpose :** Dedicated to protect and optimize client’s businesses. We are not a promotional giveaway for more lucrative equipment transactions.

**Proactive Client Support:** PrevTech reaches out to initiate risk identification and mitigation.

**Context Analysis:** Fault detection, risk mitigation, data collection and AI driven insights.

**Tailored Solutions:** Each installation is dictated, planned out and governed by PrevTech.

**Data Privacy:** CyberSecure and guaranteed client confidentiality and data governance.

**Active Case Management:** Ongoing oversight of active cases.

**PrevTech Quality Standard:** PrevTech issues an 'installation certificate' only after conducting thorough qualification and testing of each installation. Invoices serve as proof of purchase, not as an attestation of a qualified installation.

**What we are not :** Ventilation experts.
